

## **PURPOSE, REQUIREMENTS, GUIDELINES**

- The main purpose of this network is to communicate detailed information about CC programs and connect with members.
- Athletes and parents participating in any of the Connie Cycling programs are required to join the network as this will be the primary means for CC communicating information, updates, and announcements. Joining the network should be done immediately upon enrolling in a CC program. Let Connie know if you don't have access to the internet so other arrangements can be made for you to receive communications.
- Families with athletes between the ages of 13–18 are required to join and set up two CC Network Pages; one for the athlete and one for the parent. Families with athletes under 13 are required to set up only a parent page (the network terms do not allow kids under age 13 to join).
- The CC network is a resource of information and a benefit intended for CC participants only. Invited people can join and become a member and is private and visible to members only. The reason for this is so that CC remains focused on serving current participants of CC programs; providing good personal communications, good follow up and an effective member experience.
- Connie Paraskevin serves as the administrator of the network. The administrator has the ability to invite people to become members, monitor content and language on the network, and suspend or remove members. Suspending or removing a member will remove all of their posted content including photos, videos, forum posts, blogs, comments, events and any other content they've added to the Connie Cycling Network.
- If at any time a member of the CC network has not been actively participating in a CC program for more than 30 days, the administrator will remove or suspend the members access to the network. Again, Connie Cycling resources are intended for active participants only.
